**Bridgestone Corporation Announces
Business and Financial Results
for First Three Quarters of Fiscal 2006**

Tokyo (November 1, 2006) - Bridgestone Corporation (the "Company") today announced its unaudited consolidated business and financial results for the period January 1 to September 30, 2006, the first three quarters of the present fiscal year (January 1 to December 31, 2006). These results are for the Company and its consolidated subsidiaries, collectively referred to below as the "Companies." The Company had 446 consolidated subsidiaries and 191 equity method affiliates at September 30, 2006.

Here is a summary of the Companies' first three quarters results in 2006 and management's projections for the Companies' sales and earnings performance for the full year of fiscal year 2006. Solely for the convenience of readers, the dollar figures have been calculated at US\$1 = ¥117.90, the exchange rate on September 30.

I. Summary of Business and Financial Performance

A. Sales and earnings

	FY06 January - September	FY05 January - September	Increase (decrease)	
	¥ billion	¥ billion	¥ billion	%
Net sales	2,163.0	1,920.8	242.1	13
Operating income	123.7	153.4	(29.6)	(19)
Ordinary income	102.7	144.7	(42.0)	(29)
Net income	50.0	159.3	(109.3)	(69)

A defining trend of the business environment in the first three quarters (January 1 to September 30, 2006) was continued global upward movement in the cost of crude oil and other

raw materials. The Japanese economy continued to recover as a result of improving corporate earnings and increases in capital spending and personal consumption. In the United States, personal consumption and capital spending showed an overall increase during the 9 month period, while the economy appears to be slowing and there are concerns about the economy's future direction based on such indicators as a decrease in housing construction. Economic recovery proceeded in Europe, supported by domestic demand. Strong economic growth continued in China while other Asian economies expanded steadily.

Amid such a business environment, the Companies continued to execute initiatives worldwide expanding sales of high-value-added products and launching appealing new products. Additionally, the Companies continued group-wide efforts to increase production capacity in strategic product lines, enhance productivity and make the most of their strengths in research and technology.

As a result, net sales in the first three quarters increased 13% over the same period of the previous year, to ¥2,163.0 billion [\$18.3 billion], while operating income decreased 19%, to ¥123.7 billion [\$1,049 million] due in part to the significant impact of high prices for natural rubber and other raw materials. Ordinary income decreased 29%, to ¥102.7 billion [\$871 million], and net income decreased 69%, to ¥50.0 billion [\$424 million].

The Companies accrued pretax ¥17.8 billion [\$151 million] as an extraordinary loss during the first three quarters of the current fiscal year in connection with the announced closure of two tire plants in the Americas. Further, results for the first three quarters of 2005 included an extraordinary gain of ¥81.7 billion [\$693 million] arising mostly from the return to the Japanese government of the substitutional portion of an employee pension plan, an extraordinary loss of ¥28.9 billion [\$245 million] due mainly to a payment made in connection with a settlement agreement between Ford Motor Company and Bridgestone Firestone North American Tire, LLC and tax gains of ¥40.1 billion [\$340 million] in line with the recognition of deferred tax assets through reversal of a valuation allowance.

B. Segment Information

Note:

The amounts for segment results include inter-segment transactions that are eliminated in calculating the consolidated results.

a. By business segment

		FY06 January - September	FY05 January - September	Increase (decrease)	
Tires	Sales	¥ billion 1,723.0	¥ billion 1,528.8	¥ billion 194.1	% 13
	Operating income	85.8	117.8	(32.0)	(27)
Diversified Products	Sales	462.2	413.9	48.3	12
	Operating income	37.9	35.4	2.4	7
Consolidated Results	Sales	2,163.0	1,920.8	242.1	13
	Operating income	123.7	153.4	(29.6)	(19)

In the tire segment, the Companies' sales in the first three quarters increased 13% over the prior year's first three quarters, to ¥1,723.0 billion [\$14.6 billion], while operating income declined 27%, to ¥85.8 billion [\$728 million], due in part to the significant impact of high raw material costs. The Companies worked to maximize their sales momentum by introducing appealing new products worldwide and improving product mix through increased sales of high-value-added products. Elsewhere, the Companies improved and expanded strategic production sites around the world.

In the diversified products segment, the Companies' operating income in the first three quarters increased 7% over the prior year's first three quarters, to ¥37.9 billion [\$321 million], on an increase of 12% in sales, to ¥462.2 billion [\$3.9 billion]. Business was especially strong in automotive components and in the commercial building materials operations in the United States.

b. By geographical segment

		FY06 January - September	FY05 January - September	Increase (decrease)	
		¥ billion	¥ billion	¥ billion	%
Japan	Sales	880.0	814.5	65.5	8
	Operating income	71.2	82.7	(11.4)	(14)
The Americas	Sales	989.3	838.5	150.7	18
	Operating income	28.3	41.0	(12.6)	(31)
Europe	Sales	304.5	270.6	33.9	13
	Operating income	11.3	14.4	(3.1)	(21)
Other	Sales*	324.4	269.9	54.5	20
	Operating income	16.3	16.3	-	-
Consolidated Results	Sales	2,163.0	1,920.8	242.1	13
	Operating income	123.7	153.4	(29.6)	(19)

*Note: In line with a change in the contractual relationship of certain inter-segment transactions in the first three quarters in other regions, sales amounts for the prior year's first three quarters have been restated for the purpose of comparison.

Sales in Japan increased 8%, to ¥880.0 billion [\$7.5 billion], while operating income decreased 14%, to ¥71.2 billion [\$604 million], due in part to the significant impact of high raw material costs. Unit sales of tires in the domestic market exceeded the prior year's first three quarters. Unit exports of truck and bus tires were also strong, while unit exports of passenger car and light truck tires decreased. This is partly the result of capacity expansions in overseas plants intended to help supply global market segments. Performance in diversified products exceeded the prior year's first three quarters due to steady growth mainly in automotive components.

In the Americas, the Companies' sales in the first three quarters increased 18%, to ¥989.3 billion [\$8.4 billion] due in part to the exchange gain on the weaker Japanese Yen and higher sales due to better brand and product mix and higher selling prices. Operating income decreased 31%, to ¥28.3 billion [\$240 million], despite efforts to address the impact of increasing raw material costs. In North America, unit sales of passenger car and light truck tires declined in both the original equipment and replacement sectors due to an industry-wide

decrease in demand. Unit sales of truck and bus tires increased in both the original equipment and replacement sectors, led by "pre-buy" activities as a result of new 2007 environmental regulations (engine emission requirements). Sales also improved in the diversified and Latin American operations over the prior year's first three quarters.

Sales in Europe increased 13%, to ¥304.5 billion [\$2.6 billion] due in part to the exchange gain on the weaker Japanese Yen, while operating income decreased 21%, to ¥11.3 billion [\$96 million], due mostly to the significant negative impact of rising raw material costs. Unit sales of passenger car and light truck tires increased in both the original equipment and replacement sectors. Unit sales of truck and bus tires were also strong.

In other regions, sales grew 20%, to ¥324.4 billion [\$2.8 billion], spurred by vigorous marketing efforts as well as the exchange gain on the weaker Japanese Yen. Operating income remained on a par with the prior year's first three quarters to ¥16.3 billion [\$138 million] due in part to the significant increase in raw material costs.

C. Cash Flow

		FY06 January - September	FY05 January - September	Increase (decrease)
		¥ billion	¥ billion	¥ billion
Net cash provided by operating activities		64.1	89.2	(25.0)
Net cash used in investing activities		(190.7)	(155.5)	(35.2)
Net cash provided by financing activities		107.4	7.8	99.6
Effect of exchange rates on cash and cash equivalents		4.6	4.0	0.5
Net decrease in cash and cash equivalents		(14.4)	(54.3)	39.8
Cash and cash equivalents	At beginning of period	213.5	263.7	(50.1)
	At end of period	199.1	209.3	(10.2)

The Companies' cash and cash equivalents declined ¥14.4 billion [\$122 million] during the first three quarters of 2006, to ¥ 199.1 billion [\$1,689 million], compared with a decrease of ¥54.3 billion [\$461 million] in the prior year's first three quarters.

(Cash flow by operating activities)

Net cash provided by operating activities decreased ¥25.0 billion [\$212 million] compared with the prior year's first three quarters, to ¥64.1 billion [\$544 million]. The principal contributors in that cash provided included depreciation and amortization of ¥107.4 billion [\$911 million], compared with ¥94.0 billion [\$797 million] in the prior year's first three quarters; income before income taxes and minority interests of ¥90.6 billion [\$768 million], compared with ¥197.5 billion [\$1,675 million] in the prior year's first three quarters; and a decrease in notes and accounts receivable of ¥23.1 billion [\$196 million], compared with a decrease of ¥5.3 billion [\$45 million] in the prior year's first three quarters. Those contributors offset an increase of ¥89.1 billion [\$756 million] in inventories, compared with an increase of ¥74.9 billion [\$635 million] in the prior year's first three quarters; and ¥53.3 billion [\$452 million] in income taxes paid, compared with ¥65.9 billion [\$559 million] in the prior year's first three quarters.

(Cash flow by investing activities)

Net cash used in investing activities increased ¥35.2 billion [\$299 million] compared with the prior year's first three quarters, to ¥190.7 billion [\$1,617 million]. Expenditures included payments of ¥182.2 billion [\$1,545 million] for purchase of property, plant and equipment, compared with payments of ¥147.3 billion [\$1,249 million] in the prior year's first three quarters.

(Cash flow by financing activities)

Net cash provided by financing activities increased ¥99.6 billion [\$845 million] compared with the prior year's first three quarters, to ¥107.4 billion [\$911 million]. Cash dividends paid were ¥20.2 billion [\$171 million], compared with ¥16.7 billion [\$142 million] in the prior year's first three quarters. However, that expenditure was offset by a net increase in borrowings and bonds of ¥133.1 billion [\$1,129 million], compared with ¥66.6 billion [\$565 million] in the prior year's first three quarters.

II. Projections

Below is a summary of management's projections for consolidated sales and earnings for the full year. There are no changes in consolidated projections made on August 9, 2006.

[Consolidated]

	FY06 Projections	*FY05 Results	Increase (decrease)	
	¥ billion	¥ billion	¥ billion	%
Net sales	2,950.0	2,691.3	258.6	10
Operating income	165.0	213.8	(48.9)	(23)
Ordinary income	128.0	198.1	(70.1)	(35)
Net income	62.0	180.7	(118.8)	(66)

*Note: Fiscal 2005 results included: an extraordinary gain of ¥82.8 billion [\$702 million] arising mostly from the return to the Japanese government of the substitutional portion of an employee pension plan; an extraordinary loss of ¥36.3 billion [\$308 million] due mainly to a payment made in connection with a settlement agreement between Ford Motor Company and Bridgestone Firestone North American Tire, LLC; and tax gains of ¥40.9 billion [\$347 million] in line with the recognition of deferred tax assets through reversal of a valuation allowance.

Forward-Looking Statements

The preceding descriptions of projections and plans are "forward-looking statements," which involve known and unknown risks and uncertainties. Those variables could cause the Companies' actual performance and results to differ substantially from management's projections and plans.

Bridgestone Corporation, headquartered in Tokyo, is the world's largest manufacturer of tires and other rubber products. Tires account for 80 percent of Bridgestone Group sales worldwide. The company also manufactures industrial rubber and chemical products, sporting goods, and other diversified products. It sells its tires and other products in more than 150 nations.
